

PRATUS™ FOR MODERNIZING READINESS EXERCISES

Planning, Conducting, Assessing, & Evaluating Training Exercises

WHAT IS PRATUS?

PRATUS, a premier Microsoft partner, is a decision-support software suite designed to enhance planning, intelligence, operations, and logistics for crisis management. From complex evacuations to national security threats and extreme weather events, the platform empowers organizations with real-time insights and coordinated response capabilities.

FEATURES

PRATUS provides the following capabilities to enhance training exercise efficacy:

FULL TRAINING LIFECYCLE SUPPORT

- Comprehensive training management from planning and execution to evaluation and reporting.
- Streamlined training and exercise workflows accelerate planning, reducing time spent on coordination and scenario development.
- Optimizes planning with customizable templates for meetings, participants, objectives, and MSEL injects.
- Monitor inject statuses and track performance dynamically to enhance training effectiveness.
- DisasterGPT™ provides real-time situational awareness of potential disruptions, aiding leaders in making decisive actions during training exercises.

MULTI-ORGANIZATIONAL COLLABORATION

- Enables real-time collaboration among partner nations through the Microsoft 365 integration.
- Conduct and synthesize joint operational files securely within your Microsoft tenant.
- Offers secure, CAC-enabled access on Azure Gov across SIPRNet and NIPRNet.

PERFORMANCE ANALYSIS

- Create customized reports to support performance analysis and mission success.
- Capture and export lessons learned for the Joint Lessons Learned Information System (JLLIS).
- Generate after-action reports to help leadership evaluate training effectiveness and improve future exercises.

AT A GLANCE

CURRENT STATE

- Limited threat intelligence
- Unpredictable extreme weather risks
- Inefficient risk assessment
- Delayed information

SOLUTION

- AI-powered situational intelligence
- Real-time threat detection
- Weather impact analysis
- Monitoring & tracking
